

21" Professional Walk-Behind Mowers

For performance that's a cut above the rest, choose the 21" Heavy-Duty walk-behind equipped with Toro's patented Recycler® mulching system, or the Commercial 21 that offers dependable 3-in-1 performance in a light-weight design.

RECYCLER MULCHING

Patented Recycler mulching system injects minced grass clippings deep into the turf to provide a "just bagged" appearance without the hassle of clipping collection and disposal.

2-IN-1 RECYCLER/ REAR BAGGING

Standard 2-in-1 Recycler mulching and rear bagging deck on 21" Heavy-Duty models. Significantly reduce mowing time with Recycler mulching technology, or utilize the fast-emptying, easy on-and-off 2.5 bushel bagger.

HEAVY-DUTY RECYCLER

- Powered by premium Kawasaki® or Honda® commercial engine
- **Recycler mulching and rear bagger standard**
- Self-propelled zone start or self-propelled blade brake clutch (BBC)
- The industry's thickest deck — 1/4" thick, corrosion-resistant cast aluminum
- **Commercial-grade steel wheels with ball bearings**
- Blade Brake Clutch (when equipped) enables operator to disengage blades without shutting down engine.

COMMERCIAL 21 MODELS

- Powered by Honda GSV engine
- Easy-to-handle, light-weight design (83 to 87 pounds)
- **3-in-1 deck design allows mulching, side-discharge or bagging**
- **Easy on/off bag with larger opening allows optimal bagging performance**
- Durable rust-free deck and steel wheels with ball bearings for long life

Heavy-Duty

Commercial 21

MODEL NUMBER	MODEL TYPE	ENGINE	CONFIGURATION	CUTTING DECK	ACRES/HOUR
22195	Heavy-Duty	Honda GXV 160	SP, ZS	21"	0.9
22196			SP, BBC		0.9
22197		Kawasaki FJ180V	SP, ZS		0.9
22198			SP, BBC		0.9
22155	Commercial 21	Honda GXV 190	HP, ZS		0.7
22156			SP, ZS		0.7

1) For additional product specifications see pages 28 and 29.
2) Maximum acres per hour based on 100% efficiency (MPH x width of cut). Actual productivity dependent upon conditions.
3) SP = Self-Propelled; HP = Hand-Push; ZS = Zone Start; BBC = Blade Brake Clutch

COMMERCIAL-GRADE STEEL WHEELS

Low-maintenance steel wheels utilize sealed ball bearings and steel pivot arms for long life with less downtime and lower replacement costs.

EASY ON/OFF BAG

Easy, one-handed on-and-off bag design allows for fast bag emptying and added productivity on the Toro Commercial 21.

3-IN-1 DECK DESIGN

Commercial 21 models let operators convert from mulching to side-discharge mode using the provided side-discharge chute — or attach the easy-lift bag for efficient clipping collection. It's maximum versatility in a light-weight design and an economical package.
