SNOWBLOWERS¹

HANDLES WET, HEAVY SNOW

Tall, open auger housing, free of obstacles reduces clogging in deep snow. The all steel rotor has a (1) helical design which quickly breaks up and gathers snow to the (2) center section that throws snow far through it's tall chute opening.

QUICK STICK® CHUTE CONTROL

Innovative joystick control allows you to change chute direction and angle quickly and easily, on the go. (Select models only.)

EZ TURN CHUTE CONTROL

Easily change chute direction with one hand. (Model 36001 only.)

PERSONAL PACE® SELF PROPEL

Toro's innovative Personal Pace® self-propel system automatically senses and adapts to your walking speed.
