Workman® MD Series
Utility Vehicles

The complete family of
Workman Utility Vehicles
Superior ride quality

The Workman® MD series combines comfort and productivity like never before. The pioneering SRQ suspension with the Active In-Frame twister joint delivers superior ride quality for all-day comfort. Rugged front styling lets you know this is a utility vehicle built to work. With large payload and towing capacity, and a long list of accessories and attachments, the Workman MD series is the better way to get jobs done.

Toro Workman MD Series

- SRQ™ suspension
- Active In-Frame™ twister joint
- Total vehicle capacity
  - MDX—749 kg (1,650 lbs.)
  - MDX-D—749 kg (1,650 lbs.)
  - MD—567 kg (1,250 lbs.)
  - MDE—545 kg (1,200 lbs.)
- Bed load capacity
  - MDX—567 kg (1,250 lbs.)
  - MDX-D—567 kg (1,250 lbs.)
  - MD—386 kg (850 lbs.)
  - MDE—363 kg (800 lbs.)
- Towing capacity
  - MDX—545 kg (1,200 lbs.)
  - MDX-D—545 kg (1,200 lbs.)
  - MD—363 kg (800 lbs.)
  - MDE—363 kg (800 lbs.)

Count on Comfort - Stretch out

The operating platform design provides additional leg room for the operator and passenger for enhanced comfort.
**Smooth operator**

Operators cannot stop talking about the SRQ™ suspension. SRQ represents the Superior Ride Quality you can expect every time you drive a Toro® Workman® MD Series. The SRQ system starts with coil-over shock absorbers that cushion bumps in the terrain, regardless of your payload. It works together with the proprietary Active In-Frame™ twister joint that allows each axle to follow ground contours independently. The result is a smooth ride that you and your team will notice immediately. Operators suffer less fatigue and stay more productive throughout the day.

SRQ is one of the most robust suspension systems in the market, allowing you to tackle rougher terrain and get more done.

The Active In-Frame™ twister joint ensure all four wheels maintain contact with the ground for better control over rough terrain.
Strong performer

When comparing utility vehicles, it all comes down to operator comfort and productivity. That’s why, in addition to SRQ™, the Workman MD series features a durable plastic cargo bed with a load capacity of up to 567 kg (1,250 lbs.). You’ll also have no problem towing equipment to the job site with a towing capacity of up to 545 kg (1,200 lbs.) and the stopping power of four-wheel hydraulic brakes. Whether you're hauling sand or towing equipment, the Toro Workman delivers the power and durability you need.

Steel diamond plate floorboards provide a rugged appearance and a durable surface.

Compared to metal beds that are noisy and can rust, these double-walled polyethylene plastic beds withstand day-to-day abuse and never dent.
Workman MDE

When you need the power of a Workman with quiet electric performance, turn to the Workman MDE. The SRQ™ suspension makes driving the MDE easy on the operator. The electric motor allows you to work early in the morning around homes and where quiet performance is a must. The MDE also has 50% fewer maintenance tasks than petrol-powered vehicles and emits zero emissions. Save operating costs and enjoy the quiet and powerful performance of the Workman MDE.
Accessories and Attachments

The Toro® Workman® MD Series adapts to almost any job thanks to a wide variety of all-season accessories and attachments. A deluxe hard cab, canopy top and windshield provide protection from the sun or the elements. The roll-over protective structure (ROPS), brush guard, and heavy duty bumper help you operate in more challenging terrain. Add the deluxe or portable refreshment centre to turn your Workman into a revenue producing machine.
Workman® MD Series Accessories and Attachments

- Electric Bed Lift
- Rear Lift
- Brake, Tail and Turn Signal Lights
- Stake-Side Kit
- Rahn Groomer
- 183 cm (72”) Snow Plow

**Vehicle Specifications common to all models**

- Frame: Welded, steel channel and tube construction
- Transaxle: 16.99:1 with helical gears
- Drive: Direct, double reduction with differential
- Brakes (MD/MDX): Rear hydraulic drum; front hydraulic disc
- Brakes (MDE): Rear hydraulic drum; front hydraulic disc; complimented with regenerative motor braking

**SRQ System Specifications common to all models**

- Front Suspension: Independent A-Frame with coil over shock absorbers (all models)
- Proprietary Active In-Frame twister joint (all models)
- Rear Suspension: Swing arm design with coil-over shock absorbers (MD/MDX)

**Specifications for MDE model**

- Charger Type: Remote with drive inhibit
- Charger Input: 115V +/- 10%
- Charger Output: 48V DC (nominal) 17 amp
- Instrumentation/Dash: Battery discharge indicator, hour meter, headlight switch, on/off ignition key switch, supervisor speed selector switch
- Warranty: Two year limited (or 1,500 hours for MDE)

**TORO® PROFESSIONAL SERVICES**

**Toro Genuine Parts** Keep the productivity and performance of your equipment at its peak by using genuine Toro replacement parts. Find and identify your replacement parts online at www.Toro.com/partsviewer.

**Toro Training** Toro Technical Service Schools are available from your local distributor. Explore the training and customer care areas of Toro.com and ToroNSN.com for readily available on-line education and training materials.

**Toro Controller Repair** Provides irrigation controller boards ready for immediate board exchange to assure that downtime is minimal and your turf stays protected. Toro is the choice for reliability. +1 909 785 3630

**Toro NSN®** An industry-first support network that provides reliable, around-the-clock irrigation central control system trouble-shooting and operation assistance. For assistance please contact:

- Canada / Mexico / Latin America +1 325 673 8762
- Europe / Middle East / Africa +32 14 56 29 33
