THE
**ULTIMATE

**EXCLUSIVE
RECYCLING ACTION**

The aerodynamic blade **1** cuts the grass. The clippings hit the kickers **2** and then are pushed back down into the blade. The accelerator **3** circulates clippings repeatedly into the blade for recutting.

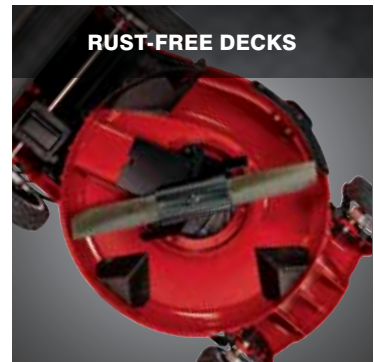

**FEED
YOUR
LAWN**

Other mowers cut grass in a way that causes clippings to pile on top of the lawn. Our uniquely engineered Super Recycler cutting system recuts the grass into finely shredded clippings that go back into your lawn. Whether you're mulching to save time, naturally composting your lawn or reducing fertilizer use, the Super Recycler gives you the ultimate in mulching performance.

**QUICK-CHANGE
STORAGE LEVER**

Need to store the mower upright in tight spaces? Just flip the blue levers to raise the handle.

RUST-FREE DECKS

Durable, rust-free cast aluminum cutting deck converts from mulching, side discharging, or rear bagging without tools.
