570Z Pro Series Fixed Spray Sprinklers

Features

- For small lawn/shrub areas
- Matched precipitation rate (MPR) nozzles allow mixing 5'-15' radius, special pattern nozzles without over/under watering and is color-coded by radius
- Available in 2", 3", 4", 6" and 12" pop-ups
- Ratcheting riser for fine-tuning alignment after installation
- Heavy-duty stainless-steel retraction spring improves pop-down and resists corrosion
- ½" Female National Pipe Thread (NPT) inlet
- Flush plugs are included on body only sprinklers and keeps debris out when flushing sprinkler lines
- Variable arc nozzle adjusts from 0° to 360° with a 15' radius and is available on the 3" and 4" pop-up
- Zero flush: No water loss at system start-up
- Superior spring and seal prevents water waste and ensures proper retraction

570Z Pro Series Fixed Spray Sprinkler with X-Flow® Water Saver® Feature

Features

- Patented X-Flow® water shut off device built into the sprinkler
- Restricts water loss if the nozzle is removed or damaged
- Works with any Toro 570 nozzle and screen
- 4": Ideal for grass and ground cover
- 6": Ideal for tall grass and plant areas

53744

570 MPR+ Nozzles

Features

- Pre-installed pressure-compensating device (PCD) conserves water by eliminating fogging and misting
- Matched precipitation rate (MPR) allows mixing of different radius and pattern nozzles without over-/under-watering
- For small lawn/shrub areas — 5' to 15' spacing
- Use with any 570 sprinkler body or shrub body
- Color coded by radius:

RADIUS	COLOR
5'	RED
8'	GREEN
10'	BLUE
12'	BROWN
15'	BLACK
17'	GRAY
Side Strip, End Strip or Center Strip	ORANGE

570 Variable Arc Nozzles (VAN)

Features

- Radius adjusts from 0° to 360°
- Matched precipitation within a radius family

**While supplies last.*

H₂FLO™ Nozzle

Features

- Ideal upgrade for existing systems to WaterSmart® irrigation technology
- Male thread fits any Toro® fixed spray pop-up body
- Female thread fits Rain Bird®, Hunter® or Orbit® spray head bodies*
- Available in quarter, half and full pattern, male or female thread

H₂FLO™ Precision™ Spray Series

Features

- **Fixed spray breakthrough — patented H₂O chip technology creates high frequency oscillating streams to achieve coverage using 1/3 less water**
- 42% less water flow when compared to standard spray nozzles
- Industry first — 1" per hour precipitation rate best matches with soil absorption rate to reduce run off and maximize irrigation efficiency
- **Industry First — adjustable spray distance (radius) from 8' to 15'**
- Ideal for small lawn or shrub areas

H₂FLO™ Sprinkler

Features

- 4" pop-up Height
- 1/2" female national pipe thread (NPT) inlet
- Available in quarter, half and full pattern

Multi-Stream Nozzles

Features

- Male thread fits any Toro fixed spray pop-up body
- Female thread fits Rain Bird®, Hunter® or Orbit® spray head bodies*
- Available in full circle or adjustable 45° to 270° pattern
- Adjustable pattern nozzle includes pattern and radius adjustment tool

Multi-Stream Lawn Sprinkler

Features

- Perfect for small lawn areas and slopes
- Matched Precipitation Rate (MPR) nozzle ensures uniform water distribution across all patterns and radius adjustments
- Gear-driven, rotating streams deliver water slowly and evenly for greater efficiency and water savings
- Available with adjustable nozzle 45° to 270° or 360° pattern – 14' to 26' spacing
- 4" pop-up height (½" inlet) with nozzle pre-installed
- Available in full circle or adjustable 45° to 270° pattern
- Adjustable model includes pattern and radius adjustment tool

Mini-8 1/2" Rotor

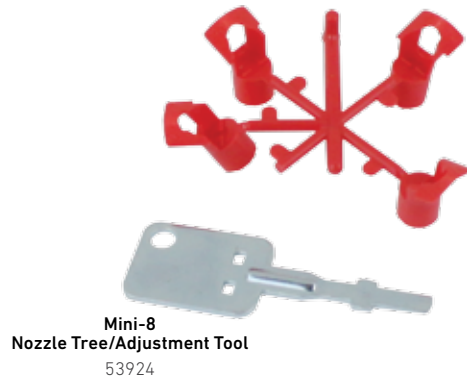

Features

- For small-to-medium lawns—20' to 35' spacing
- 40° to 360° adjustable pattern—full- and part-circle in one sprinkler
- Top arc indicator ensures easy adjustments
- 1.5 GPM nozzle factory-installed and set to 180° pattern
- 3 3/4" pop-up height
- 1/2" female-threaded inlet

Mini-8 Nozzle Tree/Adjustment Tool

Features

- For use with Mini-8 Rotor
- Comes with 4 interchangeable nozzles to cover varying flow and distance requirements
- Includes an adjustment tool to easily pull-up the riser, remove the nozzle, reduce the spray distance and adjust the pattern
- Adjustment tool can be used with other Toro rotors

LAWN SPRINKLERS AND NOZZLES

ProStream XL™ Lawn Sprinkler

Features

- For medium-to-large lawns — 25' to 46' spacing
- Three flow rate nozzles included for better watering efficiency
- 40° to 360° adjustable pattern — full- and part-circle in one sprinkler
- 3.0 GPM nozzle factory-installed and set to 180° pattern
- 5" pop-up height
- 3/4" female-threaded inlet
- Replaces impact or gear-driven rotors — including Hunter®, Orbit®, Rain Bird® and K-Rain®*
- Rubber cover for safety
- Quiet, smooth gear-driven rotation

ProStream XL™/T5 Nozzle Tree

Features

- For use with ProStream XL and T5 lawn sprinklers
- Comes with 8 standard nozzles and 4 low angle nozzles
- Standard nozzles: 1.5, 2.0, 2.5, 3.0, 4.0, 5.0, 6.0, and 8.0 GPM
- Low angle nozzles: 1.0, 1.5, 2.0, and 3.0 GPM

T5 RapidSet™ Rotor

Features

- All the same features of the standard T5 rotor, with the added patented RapidSet™ technology for easy, tool-free adjustments!
- RapidSet technology safeguards against gear damage from vandalism and abuse
- Includes a full set of 8 standard nozzles and 4 low angle nozzles that use a patent-pending Airfoil™ technology which creates a zone of low pressure just below the main stream to gently guide water downward for unmatched uniformity, without forcefully washing out seeds
- Pre-installed with 3.0 GPM nozzle
- ¾" female-threaded inlet
- Heavy-duty rubber cover minimizes injuries and reduces liability

T5 Rotor 4-Pack

Features

- Ideal for medium-to-large lawns—25' to 50' spacing
- Full 5" pop-up, an extra inch of pop-up height over competitive rotors
- Easily replaces existing rotors without any extra digging
- Pre-installed with 3.0 GPM nozzle
- ¾" female-threaded inlet
- Heavy-duty rubber cover minimizes injuries and reduces liability

Universal Impact Sprinkler-40

Features

- Replaces Rain Bird® LG-3 and MG-4 sprinklers*
- Spacing from 25' to 40'
- Low gallon, low flow at a rate of 2.2 GPM at 40 PSI
- Full circle or arc adjustable from 20° to 340°
- 3" pop-up clears tall grass
- Heavy-duty, high-impact case with sturdy, reinforced ribbed design
- Pressure-activated wiper seal assures reliable pop-up and pop-down
- Radius reduction screw breaks water into smaller droplets for uniform watering
- Grit-proof bearing for reliable operation
- Weighted spray guide arm controls stream and prevents side splash onto buildings and walkways
- Pop-up mechanism retracts into lawn when not in operation
- Dimensions: 4 1/8" diameter, 8 5/8" tall
- 1/2" NPT female connection at side or bottom

Universal Impact Sprinkler-40
53720

Universal Impact Sprinkler-45

Features

- Replaces Rain Bird® AG-5 and Orbit® sprinklers*
- Spacing from 25' to 45'
- Five interchangeable, color-coded matched precipitation rate nozzles from 1.5 to 7.5 GPM
- No tools needed to change nozzles
- Full circle or arc adjustable from 20° to 340°
- 3" pop-up clears tall grass
- Heavy-duty, high-impact case with sturdy, reinforced ribbed design
- Pressure-activated wiper seal assures reliable pop-up and pop-down
- Radius reduction screw breaks water into smaller droplets for uniform watering
- Unique lip case design aids in setting proper installation Height, prevents grass and weeds from growing into head and minimizes backwash
- Weighted spray guide arm controls stream and prevents side splash onto buildings and walkways
- Dimensions: 5" diameter, 9 3/4" tall
- Combination 1/2" or 3/4" NPT female connection at bottom and 1/2" NPT side connection for more flexibility

Single Station Battery-Operated Timer

Features

- Automates watering for nearly any automatic valve
- Perfect for system expansion or drip valve additions
- 9-volt battery-operated for wireless operation of valves in hard to reach areas
- Universal compatibility:
 - Includes adapter and DC latching solenoid to fit any Toro®, Lawn Genie®, Rain Bird® or Irritrol® valve with included adapter
 - Fits Hunter® valves (Hunter® DC solenoid sold separately)*
- 1 program, 4 start times for a flexible watering schedule
- Rain sensor compatible
- Up to one-year battery life
- 24/48 hour clock

Single Station Battery Operated Timer
53887

Lawn Master® II Landscape Timer

Features

- 3 independent watering programs and up to 3 start times per program, perfect for traditional and drip irrigation
- Pump start relay and rain sensor ports for easy connection with no wire splicing
- 365 day calendar — water on specific days of the week, odd or even days, with day exclusion to meet water restrictions
- Seasonal Adjust — adjust run times as weather or seasons change
- Three modes of operation — Automatic, Manual Station, and Manual Program
- Battery back-up stores programming (9 volt battery required)
- A.M./P.M. clock sets length of watering from 1 minute to 6 hours
- Indoor use only, available in 4- and 6-station

DDC Series Digital Dial Controller

Features

- Exclusive, patented “Digital Dial” technology makes scheduling fast and easy
- 3 independent start times per program easily identified within the digital dial interface
- Seasonal adjust by month saves water in cooler months
- Large LCD display shows watering program in operation
- 1 to 240 minute run times with delay between stations
- Multiple watering day options (calendar, interval, odd/even days)
- Manual programs feature to manually start programs
- “Arm chair” programming with 9-volt battery power source
- Compatible with rain and soil sensor technology
- For use indoor or outdoor, available in 8-station

EC•XTRA™ Sprinkler Timer

Features

- 6- or 8-zone expandable to 10 zones (indoor) using 2-zone expansion modules (sold separately)
- Programmable pump start/master valve connection
- Pump start relay and rain sensor ports for easy connection with no wire splicing
- Valve failure detection
- Non-volatile memory
- 3 programs, 4 start times (12 total)
- Seasonal adjust
- Snap-in wire connectors
- Rain delay
- **Computer Programmable Option:** Use the included EC•XTRA™ Scheduling Advisor™ Software and Time Pod™ Transport Module to simplify timer set-up and programming using a home computer

Advantages

- EC•XTRA™ Scheduling Advisor™ Water Saver® software recommends watering schedule (frequency and duration), minimizing the potential for over- or under-watering
- 365 day calendar, odd/even, interval, PLUS day exclusion scheduling makes it easy to comply with watering restrictions

2-Zone Expansion Module

Features

- Expand all Toro EC•XTRA™ and ECx® Timers
- Easy plug-in design
- No tools required

1" In-Line Jar-Top Valve with Flow Control

Features

- Popular threaded bonnet "jar-top" system for fast and easy servicing
- Flow control allows for precise adjustment after installation
- Manual internal/external bleed
- Full stainless steel metering system
- Rugged, double-beaded Santoprene® diaphragm provides leak-proof seal
- Encapsulated solenoid
- Available in 1" female-thread, slip, or 1" male NPT x barb connections

1" In-Line Jar-Top Valve

Features

- Popular threaded bonnet "jar-top" system for fast and easy servicing
- Manual internal/external bleed
- Full stainless steel metering system
- Rugged, double-beaded Santoprene® diaphragm provides leak-proof seal
- Encapsulated solenoid
- Available in 1" female-thread

3/4" In-Line Valve

Features

- Operates at 0.5 GPM — ideal for drip irrigation
- Manual bleed screw to manually activate at valve box
- Stainless-steel diaphragm spring — valve closes reliably
- 18" lead wires — easy access installation
- 1/8" male NPT inlet and outlet

3/4" In-Line Valve
53380

1" Pressure Vacuum Breaker (PVB)

Features

- Built-in unions
- Easy to winterize – twist-off cap
- Reliable design
- 1" female NPT inlet and outlet

1" Pressure Vacuum Breaker
53300

Drain Valve

Features

- Drains water from pipes to prevent freezing
- Automatically opens when water is turned off, closes when water is turned on

Rain Sensors

Features

- Compatible with most timers
- Sensor uses industry standard hygroscopic discs to sense rain
- Easily adjust the rain sensitivity from 1/8" to 1"
- "Quick-Clip™" gutter bracket for easy one-piece, tool-free mounting
- Operating temperature from -20°F to 140°F
- Saves water and money
- Water conservation device that meets legislative standards in states/municipalities with mandates

Wired RainSensor™

Features

- Requires wiring between the sensor and the controller
- 25 feet of UL rated connection wire included

Wired Rain/Freeze Sensor

Features

- Same features as the wired version with the addition of a freeze detection function

Wired Rain/Freeze Sensor

XTRA SMART® Precision™ Soil Moisture Sensor

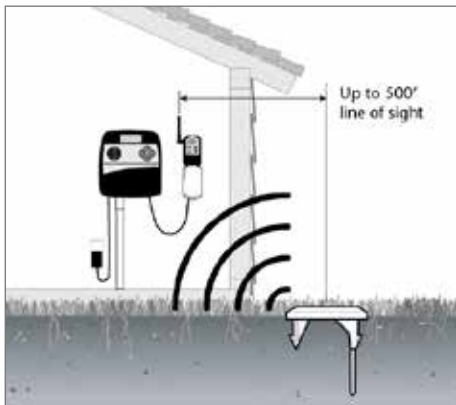

Features

- Monitors soil moisture levels and suspends watering when levels are sufficient for plant health or if freezing temperatures occur
- Turns most timers into a “smart” timer and satisfies municipal requirements in many areas
- Saves up to 35% in annual water usage
- Works with most irrigation timers including Rain Bird®, Hunter® or Orbit®*
- Easy to install – no digging or tools required
- Wireless – up to 500' line-of-sight range
- Bypass mode switches active sensor off for manual operation
- Large LCD displays sensor readings
- For use with indoor or outdoor timers
- Low-profile design sits flush with soil – does not require removal for mowing

Blue Stripe® Drip Irrigation Control Zone Valve Kits

Toro Drip Irrigation Zone Valve Kits are specially designed for low-volume drip applications. These simple, all-in-one kits are available in anti-siphon or in-line valve versions. Kits include an automatic control valve, mesh filter, pressure regulator and shut-off valve.

Features

- No need to purchase separate parts — everything needed is included in the kit!
- Minimizes installation time
- Available in anti-siphon with backflow prevention or in-line valve configurations
- Drip Irrigation Zone Valve Kits are made to fit in a standard valve box

Kit Includes:

- Automatic control valve — anti-siphon
- Mesh filter — keeps drip emitters clean
- Pressure regulator — controls pressure to emitters
- Shutoff valve — allows the zone to be shut off for maintenance
- Installation instructions

Water Source Installation Kit

Toro Drip Irrigation Zone Valve Kits are specially designed for low-volume drip applications. These simple, all-in-one kits are available in anti-siphon or in-line valve versions. Kits include an automatic control valve, mesh filter, pressure regulator and shut-off valve.

Features

- Everything you need to connect Toro Blue Stripe® Drip 1/2" Tubing from a valve, riser or outdoor faucet

Kit Includes:

- 25 PSI pressure regulator (1)
- 125 mesh filter (1)
- Hose bibb vacuum breaker (1)
- Tubing swivel connector (1) (1/2" tubing fitting x 3/4" female swivel)
- 1/2" x 3/4" bushing (1)

1/2" Tubing

Features

- Larger diameter tubing (.710 O.D. compared to .620 O.D.) means less friction loss to allow for more emitters on the same line
- Blue Stripe® identifier of quality — industry leader
- Linear low density polyethylene tubing is made from high-grade polyethylene resins
- Minimum 2% carbon black (ultraviolet inhibitor) added for resistance to sunlight deterioration
- Shrink-wrapped 50', 100' and 500' rolls
- 3 layer Matrix® technology provides superior strength and flexibility compared to traditional tubing

1/2" Tubing with Emitters

Features

- 1.0 GPH emitters factory-installed every 18"
- Perfect for ground cover, gardens and flower beds
- Professional quality, durable drip tubing
- Factory-installed emitters cut installation time... JUST DROP AND ROLL!
- Pressure-compensating emitters — efficient and precise... SAVES WATER!
- Minimum 2% carbon black (ultraviolet inhibitor) added for resistance to sunlight deterioration
- 3 layer Matrix® technology provides superior strength and flexibility compared to traditional tubing

1.0 GPH Pressure Compensating Emitters

Features

- Perfect for watering individual plants
- 1.0 GPH — pressure compensating
- Built-in dust cap for protection from debris and insects

Blue Stripe® Drip 1.0 GPH Pressure Compensating Emitters
53621

Fogger

Features

- Produces a fine mist spray
- Great for irrigating containers or use as misters for cooling patios
- Installs directly into 1/2" tubing
- 1/4" barb can be installed into 1/4" tubing
- 3.0 GPH at 20 PSI
- Diameter of throw: 2-5 ft

Blue Stripe® Drip Fogger
53651

Adjustable Flow Emitter

Features

- Simple finger-tip cap control for flow adjustment from a gentle stream to a drip action or shut off
- 1/4" barb easily installs into 1/4" tubing or 1/2" tubing
- Full circle (up to 3 feet diameter of throw), 0-13 GPH

Blue Stripe® Drip Adjustable Emitter
53681

2.0 GPH Pressure Compensating Emitter

Features

- 2.0 GPH pressure-compensating emitter has a self-flushing mode that clears debris to prevent clogging; works well in any type of water condition
- In case of severe debris, emitter may be taken apart (cap screws off) and then system can be flushed
- Durable emitter is perfect for individual plants, shrubs and trees

Blue Stripe® Drip 2.0 GPH Pressure Compensating Emitters
53690

Adjustable Flow Stream Emitter with Stake

Features

- Adjustable 0-14 GPH flow rate
- 360° pattern emitter with anchor stake
- Ideal for small flower beds or container plants

Blue Stripe® Drip Adjustable Flow Stream Emitter with Stake
53800

Adjustable Flow Bubbler with Stakes

Features

- Adjustable 0-20 GPH flow rate and anchor stake
- Ideal for small trees and shrubs whose growth requires increasing flow rates
